

Welcome to the MagnaGrafik catalogue. We specialize in unique aftermarket graphics, hood stripes, and stone guards designed to enhance your sports car. We offer our products in both traditional vinyl and high energy magnetic material. Magnetic decals open up a whole new world of options to the auto enthusiast who normally wouldn't put a traditional vinyl decal on their car. Our graphics come in many colors as well as Black Carbon Fiber for a contemporary look. Our products are precision machine cut and are made to fit your automobile. We also offer a custom livery design service for your racecar. Because each order is custom made, please allow 5-7 days production time. Orders are shipped via USPS Priority Mail. Please e-mail us with your questions at: info@magnagrafik.com. Our catalogue is being updated with new products every day. If you have any ideas we would love to hear from you. We would love to craft a custom piece for your car. It's truly amazing what the right graphic can do for your car.

New Products

We hope you enjoy our products as much as we do.

Dan

Auto enthusiast / '89 930 owner

"Designing and printing racing liveries is one of our passions. Whether it is an historic reproduction for the Cayman Interseries or a totally new concept, we derive a lot of satisfaction when we exceed our customers expectations. Our design philosophy is to compliment the lines of the car not change them." Dan Porter/Chief Stylist

MagnaGrafik at Daytona

Racing in Grand Am's Continental Series the Trade Manage and DeMan Motorsport Boxsters carry liveries styled by MagnaGrafik.

MagnaGrafik in the Cayman Interseries.

Racing in the Cayman Interseries these cars carry classic Martini liveries styled by MagnaGrafik.

The top car is styled after the first 936 called the "Black Widow". The bottom car is styled after the famous 935/78 "Moby Dick".

MagnaGrafik in the Patron Series

These 2011 GT3 Cup cars are racing in IMSA's GT3 Challenge Series under the Wright Motorsports banner.

RJR Racing Group: Rene Robichaud/Driver

SageWater Racing Team: John Ellis/Driver

PORSCHE

1970 Classic Porsche 3 Stripe:

Through the years the Porsche script has evolved to it's current form. This script was used on street and competition cars in the 60's and early 70's. These are the stripes you will want to use if you are restoring or backdating and want to capture the look and feel of that period in Porsche's history.

Magnetic & Vinyl Hood Stripes

Designed to enhance and protect your Porsche. These hood stripes offer protection from debris kicked up on road or track. Magnetic version install in seconds and can be removed and re-installed over and over. Speed rated to over 140 mph these stripes will not budge, even in competition. Precision machine cut to exacting standards. Standard Magnetic versions come in matte black. Graphic versions allow hood to show through. Like all our graphics, they are also available in 3M black carbon fiber and almost any color. Magnetic version fits all 911's with steel hoods. Paintwork shows through on graphic versions. This is a great way to make your car stand out from the rest. Also available in traditional vinyl. You won't be disappointed.

When you think of beautiful racing liveries what comes to mind? JPS Lotus, John Wyer Gulf, Rothman's or Ferrari Red paint schemes would all be on my greats list. But my all-time favorite would have to be the Martini Porsches of the 70's. Has there ever been a more attractive livery on a race car? You decide.

Now you can transform your Porsche into a racing legend while protecting your hood from stones and debris. Because they are Magnetic, you have the option of removing them when you want, without the commitment of a permanent decal. Magnetic stripes will even work with your sunroof. These stripes are speed rated to 140 mph so they won't fly off. These look great on white, silver, red and black cars. They will fit on all Porsche's with steel hoods. We also offer the option of vinyl if you choose. These hood and roof stripes will send chills up your spine every time you walk into your garage. I know from experience.

In 1976 Porsche began testing a new a race car. To keep this car a secret then CEO Ernst Fuhrman ordered the car painted black. Perhaps onlookers would think it was a "Shadow". The car was the 936/76 and it would go on to win the World Manufacturers Championship that year. The 936 raced only once in this livery at the Nurburgring 300KM. Appropriately nicknamed "The Black Widow". These stripes look devastating on black cars. Available in high energy Magnetic and 3M Vinyl.

Martini Style Side Stripes in Vinyl

These stripes are styled after the famous Martini Porsche 935/76. Designed to fit the Porsche 911 Turbo (type 930) these will also fit M491 911's, RSR wide body and 965's. These stripes were featured on white, silver, red and black (936-76 "Black Widow"). We add a white outline (see diagram below) for the "Black Widow" version to be historically accurate. We produce these stripes in 3M vinyl and laminate high gloss for a "painted on" look. All our vinyl comes pre-masked ready for installation. We also provide extra striping to make install easier.

- Martini Side/Rear Stripes.....\$395.95 set.(935SS-V)
Martini (*Black Widow) Side/Rear Stripes.....\$395.95 set.(936SS-V)

Martini Stripes for light color cars.

* Black Widow

(Fits 930, 911-M491, 965 and RSR wide bodies)

Gulf racing stripes would have to be the most recognizable racing livery of the 70's. Just how many times have I watched the movie LeMans and admired those stripes? Too many to count. John Wyer's powder blue and orange cars graced race tracks in the U.S and Europe. Now they can grace your car.

You can transform your Porsche into a racing legend while protecting your hood from stones and debris. Because they are Magnetic, you have the option of removing them when you want, without the commitment of a permanent decal. Magnetic stripes will even work with your sunroof. These stripes are speed rated to 140 mph so they won't fly off. They will fit on all 911's with steel hoods. We also offer the option of vinyl if you choose. Compliment your stripes with a matching pair of Gulf logos for your doors for that finishing touch.

I wish I could take credit for this one, but I can't. Jeremy G. up in the great white north had this idea. It pays to listen to your customers...and this color combination was a great idea. What a dynamite look for your Porsche. I can't think of a more Germanic set of stripes for the finest of German sportscars. Each set is manufactured from 3M vinyl and high energy magnetic material. We offer stripes for the hood or the entire length of your car. The horse represented below originates from Stuttgart not Maranello.

Instantly recognizable to the Porsche enthusiast, these number plates are based on the famous Martini cars of the 70's. We produce these decals in both traditional vinyl and high energy magnetic for the weekend warrior. Each is oversized making a bold statement. We use only the best products from 3M and laminate high gloss for that "painted-on" look. Our magnetic versions feature high energy material speed rated to 140 mph. Pricing includes pre-production art proof for your approval. Please indicate number when ordering.

What does a deer look like between the headlights? A Jägermeister of course. The bright orange RSR's, 935's and 962's were raced successfully in the 70's and 80's. We had to include these. We produce number plates in vinyl and high energy magnetic for the weekend warrior. Each is oversized making a bold statement. We use only the best products from 3M and laminate high gloss for that "painted-on" look. Our high energy magnetic material is speed rated to 140 mph. No racers tape needed.

**Please specify number desired when ordering.*

Magnetic: NPM-JM3...\$215.95 set

Gloss Black with Script

*"Excellent product.. Both in design and execution. Installation was a snap, literally.
Your magnetic stone-guards will make easy work of accessing my torsion bars should the need arise."*

Jack W. (1984 Carrera M491)

Gloss Black stone guards shown above on Jack's '84 "Turbo Look"

Matte Black on 930

Magnetic Stone Guards (Fits 911,930 1964-1989)

Patterned from the original oem product for perfect fit. Precision cut from high energy material. Speed rated to 150 mph. These stone guards allow access to your torsion bars without the hassel of peeling off your old vinyl. Perfect for long trips or track events. They install in seconds. Available for both wide and narrow body 911's (1964-1989). Narrow body stone guards are patterned from the turbo versions and are not the skinny fins you may have seen. Available in matte black, gloss black and black carbon fiber laminate. Please specify when ordering.

Matte Black.....\$75 set. (SG-MAG-MATTE)
Gloss Black.....\$75 set. (SG-MAG-GLOSS)
Carbon Fiber.....\$112.50 set. (SG-MAG-CF)

(Please specify narrow body or wide body when ordering.)

Carbon Fiber on 997

Magnetic Stone Guards (993, 996 and 997)

These offer more protection than the clear film intalled on your car at the factory and will not yellow over time. Perfect for long trips or track events. Stone guards install in seconds and give your Porsche an aggressive look. These will stick over your factory guards. Available in matte black, gloss black and black carbon fiber.

Matte Black.....\$89.95 set. (SG2-MAG-MATTE)
Gloss Black.....\$97.45 set. (SG2-MAG-GLOSS)
Carbon Fiber.....\$112.50 set. (SG2-MAG-CF)

(Please specify 993,996 or 997 when ordering.)

Antique finish

Mini Magnetic Stone Guards

These stone guards are designed to protect your paint from road debris while adding a stylish touch to your Mini. Precision cut from high-energy magnetic material these stone guards install in seconds and can be removed and re-installed at will. These stone guards are perfect for long trips and track events. Our high energy magnetic material is 4 times the strength of standard magnetic material and is specially coated to protect your car's finish. We use only the best products from 3M and laminate high gloss for a "painted on" appearance. These were designed for high speed applications and will not fly off if maintained properly. We recommend removing stone guards when washing your car. We also recommend drying the backside if you go through a rainstorm (moisture build-up behind the stone guard can cause hazing if left unattended). We offer these in design styles to match the factory graphics. These fit R50, R52, R53, R56, R57 and R58.
